## Logistics Mover Question

You are a Logistics Mover deployed to Minhad (near Dubai), to plan the weight and balances of aircraft travelling back to the UK after evacuating British nationals and Afghan refugees from Kabul.

You have a total of 640 people each weighing 95kg, 50 aircraft pallets of cargo each weighing 4,000kgs, 12 vehicles each weighing 2700kgs.

To complete the task, you have a C17 that can fit in 100 passengers, 6 Vehicles or 16 pallets and a maximum of 60,000kgs.

It is 3480 miles between RAF Brize Norton (The UK base of these transport aircraft) and Minhad Air base.

1. How many trips will the C17 need to move all the equipment from Minhad back to the UK?
2. How many miles will the C17 travel in total?
